Foreword

Accomplishment . . . . . now here is a commonly used word. Accomplishment has many meanings to different people, but to the graduating seniors at Cobre High it has just one meaning; to them it is the completion of twelve years of school. To them it is finally reaching that ultimate goal which they set out to accomplish. To me, Dolores Barajas, it is the completion of the 1972 Chieftain. So, I am dedicating the 1972 Chieftain to all the graduating seniors in hope that I have produced for them a memorable book to which they can look back on.

Another school year begins at Cobre High School. Salvador Armijo, one of the janitors, helps keep Cobre beautiful to maintain school pride. Robert Marrujo eats hungrily while Cathy Acosta studies for her next class. Gilbert Ortiz, Gabriel Chanez, Ernest Bustillos, Armando Rodriguez, and Henry Sierra, enjoy walking together between their classes. Inspecting the school buses is State Police Officer Hodges, with him, Joe Montoya, a Cobre bus driver. Cobre welcomed Olga Grijalva back after a long absence from school during which she was receiving her education in the homebound program. Many people are involved in making Cobre the school it is.

Students Enjoy The Various Activities

Students have many activities which they can attend during their years of school at Cobre High. The painting of the C is enjoyed by all students, especially the seniors. Out-of-town trips are always a big thing as are the dances provided by different clubs. Pep club members enjoy boosting the players to victory as they did so many times during football season. Pep rallies before a home game are always popular because of class competition. Everyone wants to see his or her class win a point towards the Spirit Stick, which is awarded to the class with the most pep.

Cobre Student Council Sponsors Second

Twirp week consisted of the following events this year: Monday was Inside-Out Clashing Color Bonnet day; Tuesday was Fighting Colt day; Wednesday was Dress-up day; Thursday was Hippie day and to end all the events Friday was Sadei Hawkins day. Student Council also held their annual Rowdy-o on that day. Events consisted of the egg toss, centipede race, branding, and the pony express, a new event this year. Between events the contestants sat on the field waiting to be called. Jody Byrd and Cindy Chandler hold the unbroken egg which declared them winners of that event. Preparing Terry Hood for the branding are Mrs. Archibald and Mr. Cosgrove, while Patty Fulmer awaits the start of the event. The pony express contestants await anziously for the starting gun. The egg toss was just as successful this year as it was before and just as messy.

The Math And Science Departments

A variety of courses are offered by the Math Department to aid the student in his quest for knowledge and higher learning. If a student is interested in the technical fields or if the person is just looking for a simple, but good paying job he will need a good background in mathematics. The teachers here try to develop in their pupils' minds the specific and general uses of their particular course. Classes are also taught how to look up specific information on formulas for working their problems. A good mathematical background is developed for whoever will take advantage of it. Mr. Crandall, Mrs. Kindell, Mr. Cosgrove, and Mrs. Morris coordinate their work so that the students will have little or no problem in being able to understand next year's work.

Chemistry if offered to those students who have a need for knowledge in this more complex field. The science of electricity and electronics is also taught to students who wish to learn about this newer field.

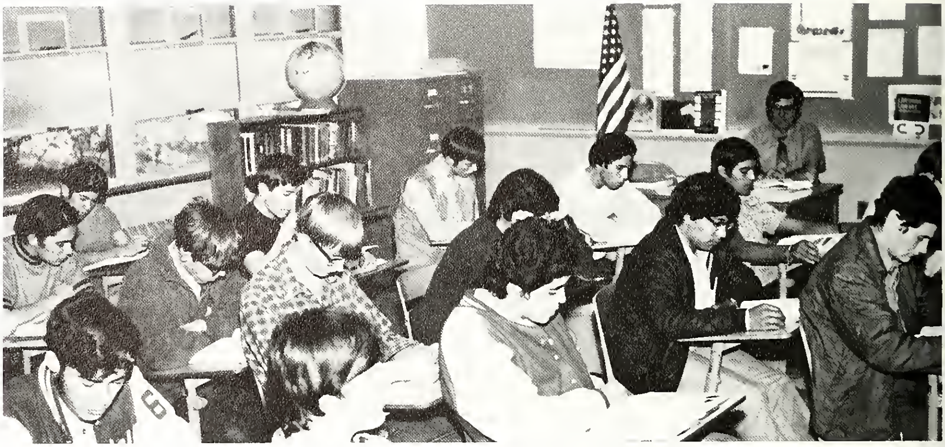
Mrs. Barbara Serna

More concentration on spoken Spanish was the emphasis in foreign language this year. According to Mrs. Serna, department head, and attempt is being made to reach a higher degree of fluency among English-speaking students. A need for this approach was indicated and the response was rewarding. Students in the classes worked on dialogues, dictations, reading and oral participation through audio tapes and films. The students also listened to Spanish records for their enjoyment. Spanish teachers this year were Mrs. Barbara Serna, department head; Mrs. Rachel Terrazas; and Mr. Frank Lopez.

Teaching the fundamentals of Spanish is Mrs. Serna.



Mr. Benavidez is one of the social studies teachers. Here he is with one of his classes of juniors in an American history course. Each student is required to take American history during his or her junior year.

History Classes Look Back At The Past

History courses are constructed to inform students of past and present cultures and how they effect us. They give students an understanding of how past civilizations lived and why or why not they exist in this day and age.

Different methods are used in approaching a subject. One way is to hold panels, another is to ask guest speakers to inform the classes, and last but not least are the regular class discussions and work.

The Library Is Useful In Many Ways

Lillian Nanez, one of the eighteen workers in the library, helps Mrs. Hudson, the librarian, to shelve books.

The library provides both enjoyment and information for the whole school. Materials found, consist of books, magazines, clippings, filmstrips, and slides. Newer and better materials are coming in all the time. Some of the materials may be checked out while others remain in the library in order for them to be available to all at the time when needed.

Eighteen workers help the Librarian and assistant in the library. They consist of three students per period. During pre-registeration in spring a person may sign up to take this course during the next school term.

Working in the library helps a student as he goes on to college because he will be familiar enough to know and use the library.

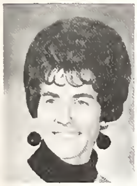
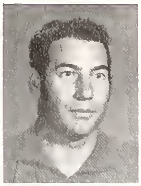
Large P. E. Classes Make Time Count



Vernelle Crandall



Ron Darnell

This year, time was an important factor in the large physical education classes. Each day started out with different types of exercises. The rest of the class period was then spent on gaining knowledge of a certain activity or sport. Among these activities are volleyball, basketball, tumbling, gymnastics, folk and square dancing, badminton, and tennis. Archery was a new addition to all these activities.

Mrs. Vernelle Crandall instructed the girls physical education classes. The boys physical education classes were under the guidance of Mr. Ron Darnell and Mr. Robert Benavidez.

In the boys physical education classes, basketball is only one of the many activities which helps the students to develop their muscles and at the same time learn the techniques and skills of each particular sport.

Clerical Science, Something Brand New To

Thomas Chavez and Mary Ellen Salas are busy typing while a tape recorder is dictating the contents of the letter. This is an every day lesson for the students in clerical science. This helps students get prepared for a clerical job after they graduate.

SECOND ROW: Della Lopez, Rufina Telles, Gloria Montoya, Francine Adcock, Velva Donaldson, Armando Rodriguez, and Sharolyn Oberg.

The Commercial Department

Bertha Barraza is figuring out business accounts in a bookkeeping class. Students work such as learning about ledgers, debits, and accounts.

Headed by Mrs. Mary Bray the commercial department prepares students for the outside business world.

With the help of Mr. Milford Thompson, who teaches bookkeeping and typing and Mr. Monce Flores who teaches both typing and business math, students are prepared.

A new course added to the commercial department is clerical science. This helps students who want to go into clerical work to get the experience that they need. Mrs. Bray teaches this subject.

Another class offered to students who plan to go into business as soon as they finish high school or college is is secretarial science. This helps those students to get experience in the field they wish to go into, by taking dictation, sending business letters, or just practicing the writing of business letters and forms.

All these courses give the students the knowledge of business for business work or secretarial work for their future use.

The students then have their choice of doing certain leather articles such as coin purses, card holders, cigarette holders, key cases, belts, moccasins, etc.

During the year, the students enrolled in art do orthographic projects which help them understand blue print reading and other works of drawing and design.

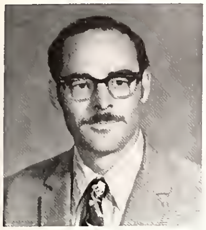
Prepare Students For Future Occupations



Mr. Fred Tillman

Mr. William Gray

Learning all the safety rules is a major factor in the general shop, carpentry and woodwork classes, if the boys are to work efficiently. After the first six weeks of school, with this knowledge behind them, they start working on their selected projects.

The students in woodwork use hand tools, the power saw, and other power equipment to accomplish their projects. They construct such useful things as desks, tables, shelves and other wooden articles.

The students taking general shop do all sorts of repair jobs, build feeders, and do other welding jobs.

This year, Mr. Fred Tillman taught both general shop and woodwork. Mr. William Gray also taught two courses, which were woodwork and carpentry. General shop was taught also by Mr. Dwight Houston.

During his carpentry class, Ray Baca helps construct a ticket booth for the football Homecoming game.

These topics are the generation of electricity, motors, batteries, and all related material. Electronics deals with the theory and application of basic electronic devices. The equipment with which they work are transistors and tubes. Students learn how to handle these fundamental pieces of test equipment. In summarizing this field, electricity deals with large quantities of electrical power, whereas electronics deals with minute quantities of electricity. Mr. Cosgrove teaches his students with actual experiments, of the problems in the field of electricity.

Varsity Squad Third At Invitational

Xavier Acosta blocks an attempt by Deming player Bill Allen as the rest of the players look on and anxiously await the outcome.

This year the Cobre varsity squad ended the basketball season with an overall record of 9-9. In the district game competition, Cobre had wins over Socorro, Gadsden, and Tularosa and losses to Socorro, Gadsden, Silver, and Deming. In the non-district competition, Cobre had wins over Lordsburg, Cliff, and Hot Springs and losses to Mayfield, Lydia Patterson, and Las Cruces. In the invitational competition, Cobre came up fighting in the Gallup Invitational to get third place by beating Grants. Returning lettermen were Henry Carrillo, Xavier Acosta, Ray Delgado, Davy Munoz, and Kito Pedraza. Lynford Wilson, a sophomore and a newcomer to the varsity team, was high point man for most of the games and helped lead Cobre through a rough season.

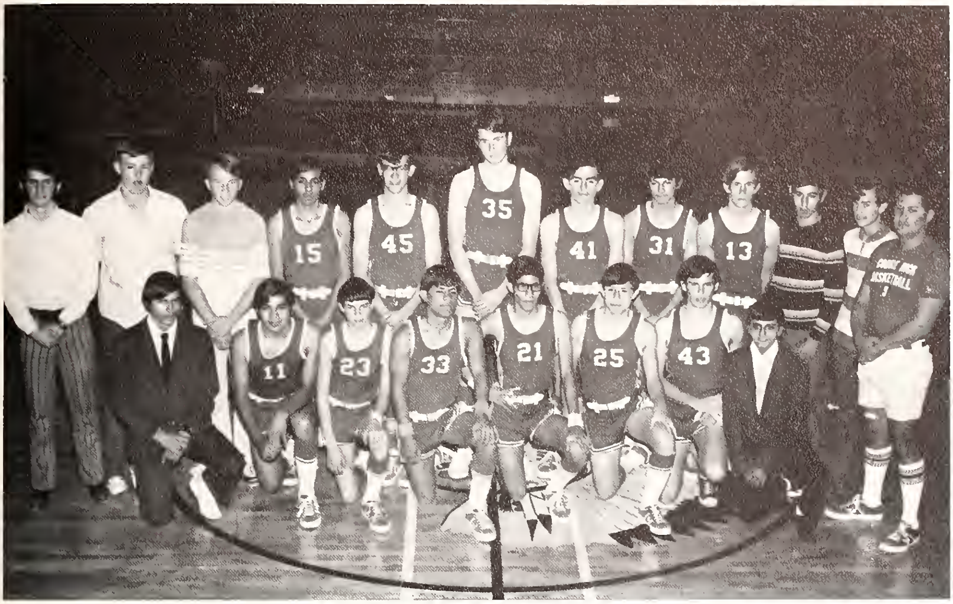
The 1972 Indian basketball squad coached by Mr. Robert Benavidez with the assistance of assistant coach, Hector Madrid, consisted of Henry Carrillo, Butter Jimenez, Jimmy Bradberry, Mike Puentes, Larry Sifuentes, Mike Acosta, Xavier Acosta, Lynford Wilson, Hector Ramirez, Davy Munoz, Kito Pedraza, and Ray Delgado. The team managers were Bobby Perez, Martin Porter, and Ricky Reiss.

Junior Varsity Takes Second In District

The Junior Varsity Basketball Team ended their season with a record of nine wins and ten losses. They placed second in the district tournament, while Deming made first. The JV's started out the season with four straight wins against Lordsburg, Mayfield, Cliff, and Lydia Patterson. Then in the B-Team Tournament held in Deming on December 30, they had their fifth victory against T or C with a score of 84 to 51. The team lost their sixth game to the Deming B-Team, thus placing second in the tournament. Then after losing to Deming the team lost three more games in a row to Deming (again), Lordsburg, and Gadsden. It was not until on January 15 that they tasted victory again when they defeated T or C once more. Still their luck didn't turn around because they lost five consecutive games to Silver, Tularosa, Silver, Las Cruces, and Gadsden. Everything was looking bad until on February 19, they defeated Cliff 59 to 47. In the district tournament that followed they proceeded to beat Tularosa 66 to 64 and Gadsden 63 to 52. They lost first place to Deming and settled for second in the district. Head coach for the Junior Varsity team was Hector Madrid assisted by student Coaches Candy Jaurequi and Albert Sedillo.

Shooting a free throw for Cobre is Butter Jimenez.

Michael Puentes scores against Deming in a crudial game.



The Junior Varsity team included manager Robert Rodriguez, Ralf Delgado, Jimmy Bradberry, Michael Puentes, Hector Ramirez, Butter Jimenez, Wayne Hoeye, Manager Bobby Espinosa, David Ramey, Bill Coppedge, Robert Burns, Arthur Ortiz, Marshall Rogers, John Gibson, Jerry Maez, Bobby Pedraza, Randy Foster, Felix Sandoval, Ray Cobn, and Coach Hector Madrid.

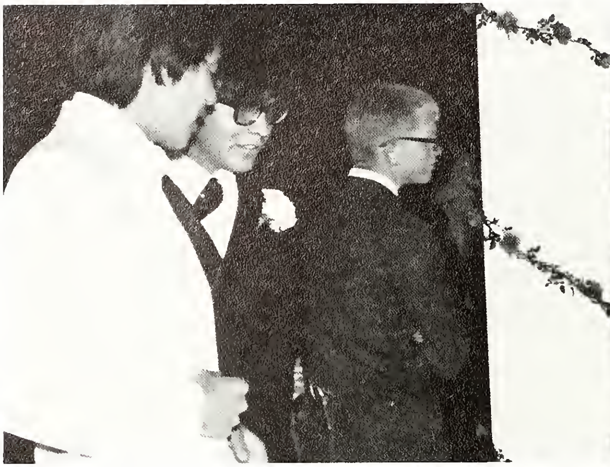
Friends, Teachers, Ring Orders, Assemblies

Juniors are kept busy the whole year with all sorts of activities. Monique Walter, Kelley Childs and Patsy Salas are hurrying up the school steps to be sure they are on time for their classes. Larry Dominguez and Erain Dominguez walk down the hall conversing with Mr. Alex Paterson. Rhonda Porter, Georgelen Dodson, Anna Luna and Linda Nunez place their class ring orders with Mr. Marlow. Sammy Perez, Mario Garcia, John Zapata, Mike House, Joe Martinez and Juan Cardenas wait for the results of the tallying for the class competition contest during a pep assembly. Urbano Villagran, Manuel Torres, Rhonda Porter, Bobby Perez, Joe Chavira, Ralph Delgado, Henry Sierra, Freddy Borunda, Ray Baca and Georgelen Dodson like to get together to have their picture taken and to have a good laugh.

Are A Part Of Juniors' Lives

"Precious And Few" Are The Moments



At The 1972 Jr.-Sr. Prom

Couples danced and talked and refreshed themselves before the coronation at the Jr.-Sr. Prom. Over 300 couples attended the 1972 prom. The auditorium was elaborately decorated in a garden and ballroom style. Two French-style windows divided the ballroom giving it the outside inside effect. The color scheme was carried out in royal red and gold.

Sal And Gloria Reign At Jr.-Sr. Prom

Xavier Acosta was the MC for the prom while Clyde Vanworth, a senior, and Mr. Ralph Saenz, music teacher, were the trumpeteers. Junior class president, Oscar Dominguez, proclaimed Sal Iturralde, King, and crowned Gloria Garcia Queen of the 1972 Junior-Senior prom. Their Majesties' court consisted of senior princesses, Rita Padilla escorted by Kito Pedraza and Mary Esther Trujillo escorted by Louis Quinones; junior princesses, Elma Espinosa escorted by Rudy Fernandez and Rhonda Porter escorted by Kirk Gore; crown and flower bearers were Sonny Pena and Gloria Armendariz.

Reclaimed water being processed

Chino Cares --
About your world -- About your environment

Man's survival depends upon his use – not abuse – of his environment. At the Chino Mines Division of Kennecott Copper Corporation in New Mexico, water is reclaimed and reused until it "wears out."

Then, there's smoke, made up mostly of dust and sulfur gases. Chino's smelter has had dust collecting equipment on one smokestack ever since the smelter was built more than 30 years ago. The new stack, too, is so equipped.

And so to this year's graduates, we say we are concerned about your world. We'll do all in our power to make New Mexico a better place to live, because we would like you to grow with us as so many previous graduates have done.

Natural Gas is America's Busiest Fuel.

know why?

No other fuel does so much so well for so many people. Gas cooks their meals, warms their homes, heats their water, dries their clothes, and fires the industrial equipment that adds so many good things to modern living.

There has to be a reason why gas is America's busiest fuel. And there is. Natural gas is fast, efficient, dependable, and low in cost. It's a fact that 37½ million bill-paying customers have been happy to discover.

You won't find any other fuel that can come up to gas in all these respects. That's why gas is now meeting one-third of the nation's total energy requirements. And why this word is truer than ever:

If you want the job done right ... do it with gas.
